

Session A2

Concept development: renewables and integrated sustainable urban mobility

Facilitator

Carsten Rothballer, Climate Policy Officer, ICLEI Europe, Germany

LOCAL RENEWABLES FREIBURG 2010

Changing fuels or changing patterns?

The role of renewables in sustainable urban mobility

14-15 October 2010, Freiburg im Breisgau, Germany

Concept development: renewables and integrated sustainable urban mobility

Gustaf Landahl

Head of Planning and Environment Department, Environment and Health Administration, City of Stockholm, Sweden

Planning and using biofuels in Stockholm

Concept development: renewables and integrated sustainable urban mobility

Ramon Pruneda

Project Coordinator, Strategic Factors, City of Barcelona, Spain

City of Barcelona and its electric car plan

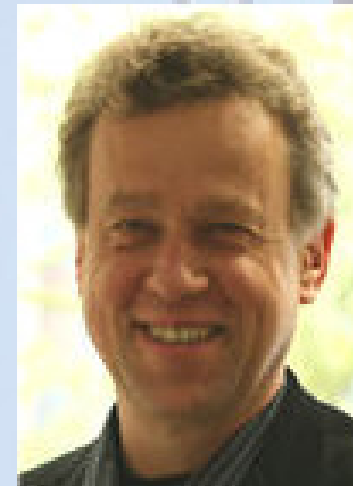

Concept development: renewables and integrated sustainable urban mobility

Michael Glotz-Richter

Senior Project Manager for Sustainable Mobility, City of Bremen,
Germany

**Carbon responsible transport strategies
in the City of Bremen**

Context for: renewables and integrated sustainable urban mobility

EU energy and climate policy framework:

- **Three pillars of EU energy policy:**
 - Security and continuity of energy supply (*60% gas, 80% oil imported*)
 - Climate change (*energy: 80% greenhouse gas emissions*)
 - Competitiveness (*renewable energy: 300.000 jobs, €20 billion annual turnover*)
- **Energy and Climate Package (2009) targets by 2020 for EU-27:**
 - GHG emissions reduction: 20%
 - Energy efficiency (EE) improvement: 20%
 - Renewable energy (RE): 20%, including 10% biofuels for transport

ICLEI Europe: some contributions to sustainable mobility

- **Information / sensitisation / dissemination**
- **Standards & guidance**
 - The Biofuel Cities Guide
 - International Local Government Greenhouse Gas Emissions Analysis Protocol (IEAP)
- **Advocacy work**
 - Local Government Climate Roadmap
 - LG Action
- **Peer and members**
